

# Visit of School Laboratory Assistants from The Kingdom of Bhutan at UAC Bose Institute

- Forty-three School Laboratory Assistants from the Kingdom of Bhutan visited the UAC Bose Institute on 28.05.2025 concerning a Training Programme on Advancing Laboratory Practices. It was a part of the 5-day Residential Programme organized by Adamas University. At Bose Institute, the faculty, laboratory staff members, and research scholars demonstrated the functioning of different instruments relevant to the school students. Prof Achintya Singha of the Department of Physical Sciences demonstrated a wireless transmission experiment and explained the accessory equipment so the participants could replicate the demonstration at their places. Prof Gaurab Gangopadhyay coordinated the event and presented them with a booklet on simple experiments in basic sciences on behalf of Bose Institute. The participants from our neighboring country returned with a high spirit and motivation to serve the students at their respective schools.
